

Blue Moon insect killer 368

Elegant design

Action range 14-16 m

2-year warranty

The Blue Moon mosquito killer is the latest member in the CRI CRI family. It is an extremely silent model, equipped with an energy efficient motor with a consumption of only 25W. The product features a filter and a collection drawer easy to clean and a top mounted safety grid, which protects the UV-lamp.

Application

The Blue Moon insect killer is very durable. Made of shockproof plastic and ideal for use both indoors and outdoors. Linear range of action 14-16 m (approx. 300 m²).
